

ROCKET LOGISTICS

CAPABILITY STATEMENT

B2B warehousing and logistics, built to move.

Container receiving, managed warehousing,
fulfilment and Australia-wide logistics
coordination.

[ROCKETLOG.COM.AU](https://rocketlog.com.au)

CAMPBELLFIELD, VICTORIA / AUSTRALIA-WIDE

One operation from inbound to dispatch.

Rocket Logistics provides connected 3PL services for wholesalers, importers and brand owners with larger B2B order profiles.

01

Container receiving

Coordinated arrivals, unloading, checking and putaway for imported goods.

02

Warehousing

Managed racked and bulk storage with controlled receiving, putaway and inventory processes.

03

Fulfilment

Order picking, pallet preparation, labelling and dispatch staging for wholesale supply chains.

04

Logistics

Australia-wide distribution arranged through carrier partners across metro, regional and national lanes.

05

Systems and Integration

Custom-built in-house software supports adaptable customer connections and workflows.

Connected systems. Clearer logistics.

Custom-built, in-house software supports our warehouse operation and adaptable integrations with customer systems.

01

Wholesalers

Reliable storage and fulfilment for repeat trade and retail customers.

02

Importers

Container receiving through to national distribution from one operation.

03

Brand owners

Adaptable logistics support that can evolve with products and growth.

START A CONVERSATION

Bring us your logistics brief.

Tell us what you move, how orders flow and where the friction sits today. We will come back with a practical next step.
